

Security and transparency through our online client portal

We are committed to continually improving the way we work with clients and always deliver services that exceed their expectations. Our online portal gives you real time access to everything you need when it comes to working with us.

You're never in the dark

When you use the **GovGrant** client portal you will have access to real time information on the progress of your current R&D tax relief claim. It shows you what the next task is and who is responsible. This is essential so that you're always up to speed.

We also show you the history of each year where we have data so you're never in the dark.

Sharing information securely

We see knowledge sharing, tools and transparency as essential to the success of your R&D claim. Our client portal allows you to share sensitive information with us securely with a simple upload function.

The portal also keeps your contract and invoice information in one place, so your **GovGrant** documentation is always at hand.

Know your team

It's important that you know your **GovGrant** team and how to get hold of them. The portal keeps this contact information together including:

- Your **account manager** who is your day to day contact if you have questions about the progress of your claim
- Your **technical specialist** will be working the floors of your business to identify the full extent of your R&D, optimise your claim and write your technical report.
- Your **commercial contact** is your business development manager who will make sure you are up to date with latest thinking and our other innovation services.

The image displays two overlapping screenshots of the GovGrant client portal. The top screenshot shows the 'Portal documents' page with a 'Total benefit: £0' and a navigation bar with 'Home', 'Portal documents', and 'My uploads'. The bottom screenshot shows the 'My GovGrant contact details' page with a 'Total benefit: £7,154' and a navigation bar with 'Home', 'My GovGrant contact details', and 'My uploads'. The contact details page lists the following information:

My account manager		Technical specialist	
First name	Sabrina	First name	Clive
Last name	Page	Last name	Flood
Email	Sabrina.Page@govgrant.co.uk	Email	clive.flood@govgrant.co.uk
Main Phone	01727 225 487	Mobile	07377 333 075

The contact details page also includes a section for the 'Commercial contact' with the following information:

Commercial contact	
First name	Clive
Last name	Flood
Email	clive.flood@govgrant.co.uk
Mobile	07377 333 075
